The graph illustrates the average number of clusters over time. The x-axis is labeled 'Time' and ranges from 0 to 100. The y-axis is labeled 'Number of clusters' and ranges from 0 to 10. The data points are connected by a blue line, and each point has a vertical error bar. The number of clusters starts at approximately 4.5 at time 0, fluctuates, peaks at about 7.5 at time 25, drops to a minimum of about 1.5 at time 75, and then rises to about 5.5 at time 100.

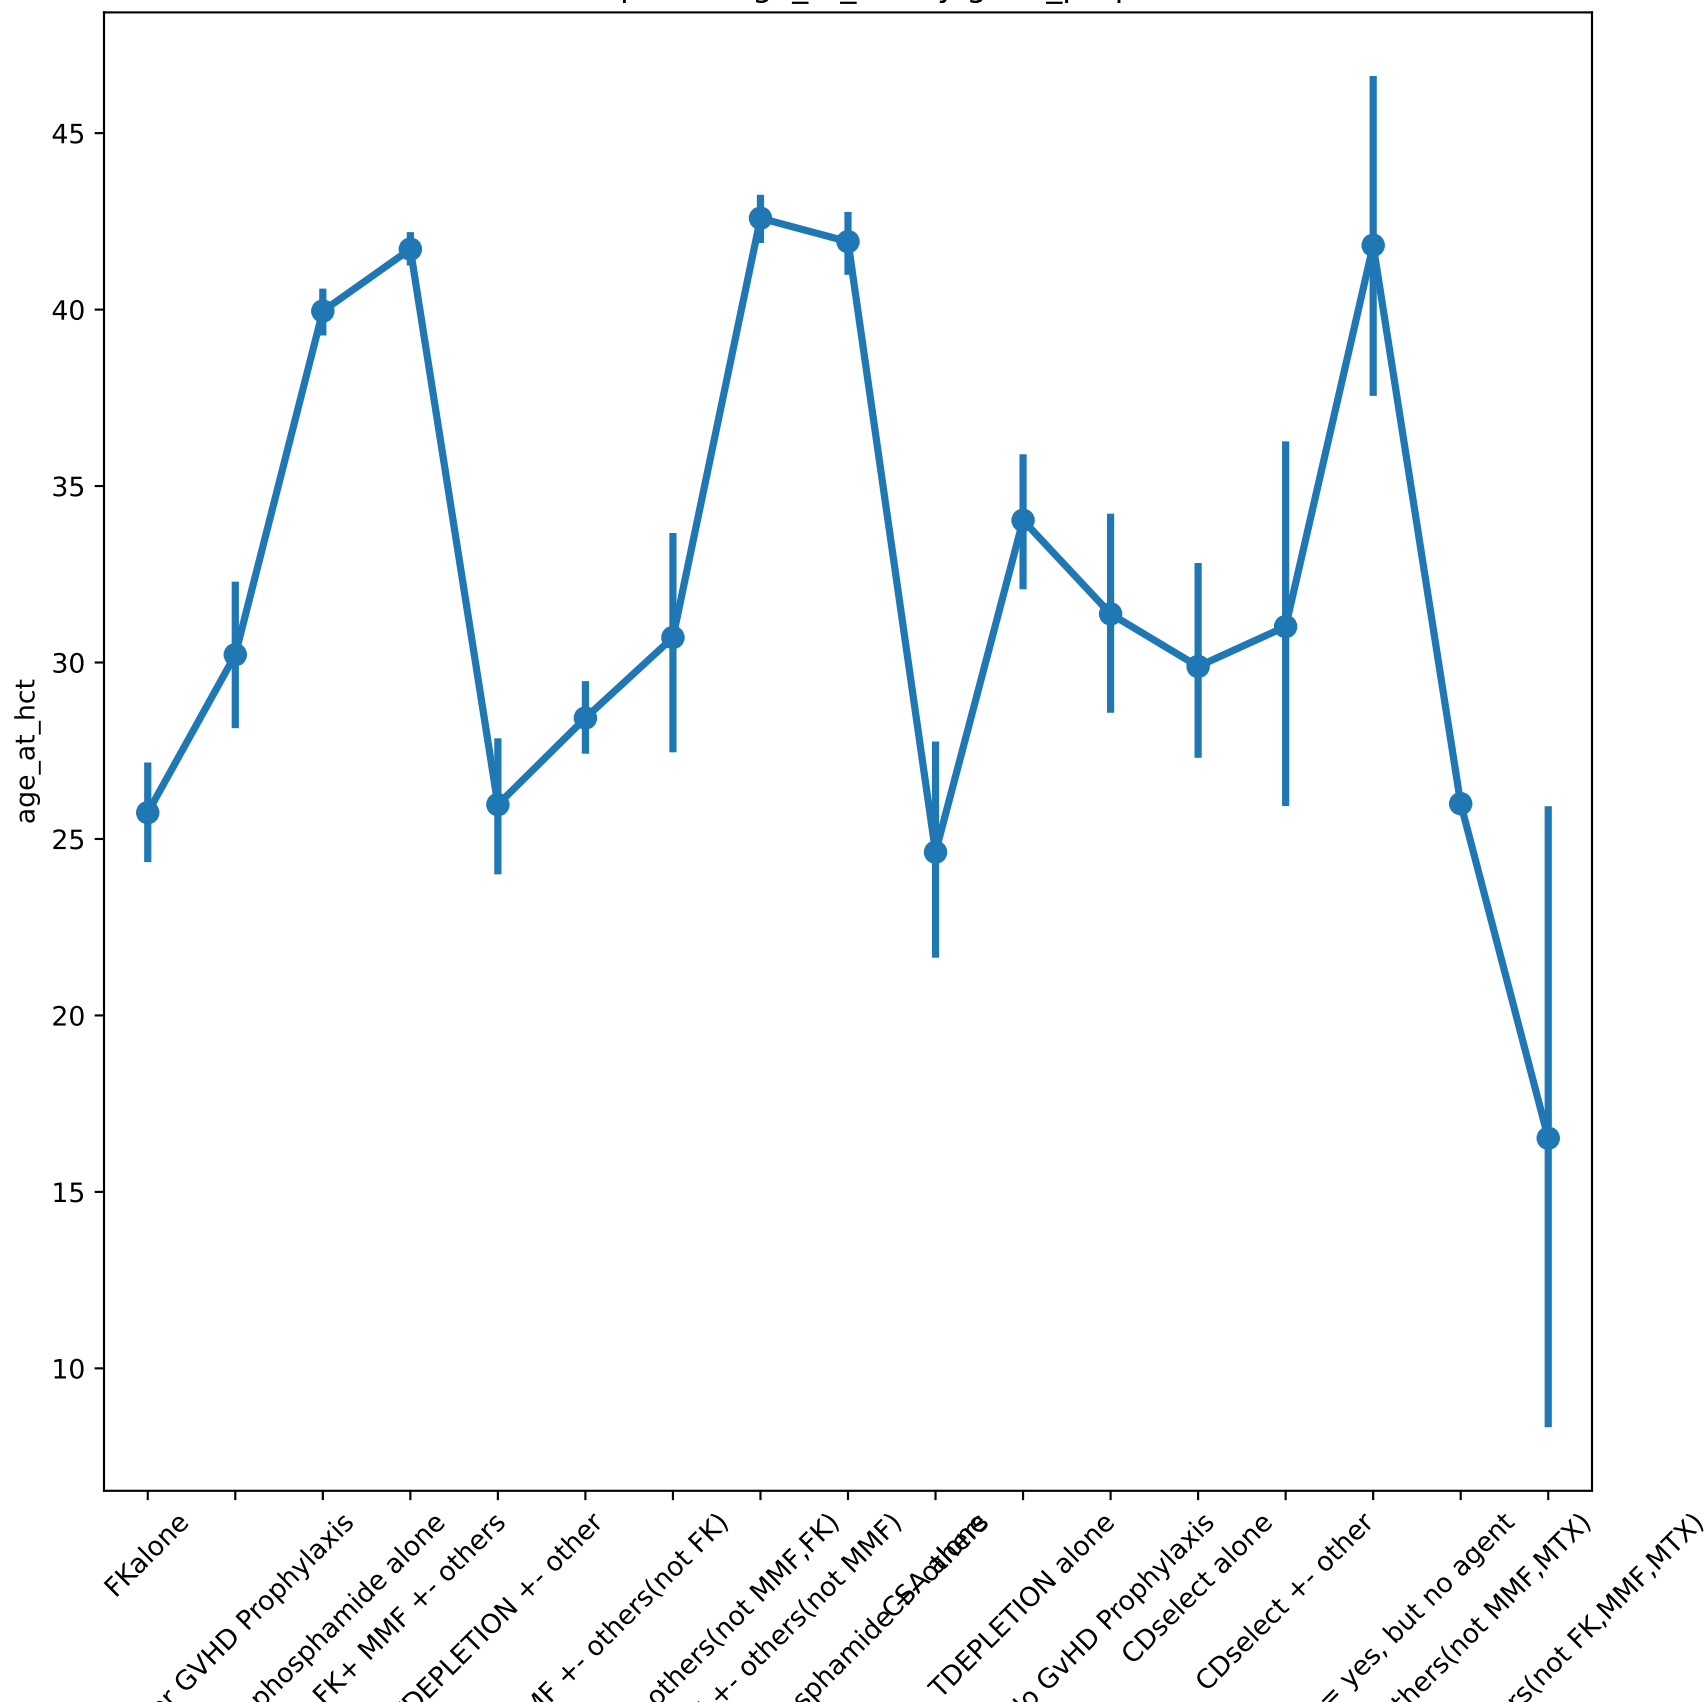

Time	Number of clusters (approx.)
0	4.5
